Registrations received prior to your child’s assigned date and time as well as incomplete registrations will not be accepted.

Registration for a semester or the entire year is available during the fall registration period. You may choose to wait and register for spring courses during the spring registration period.

Registration will be available online only during the following dates:

WAIT LISTS
Maximum class sizes range from 12 to 24 students. That being said, classes tend to fill quickly during registration. If your child is placed on the waitlist, there is no guarantee of placement in the course. Waitlists are processed as space become available. Classes with exceptionally long waitlists will be removed from the registration website and listed under closed courses online.

Tuition payment in full is due at time of registration. You may pay by Visa, American Express, Discover, or Mastercard.

WITHDRAWAL AND REFUND POLICIES
Students or parents who initiate course withdrawals after submitting their registration will be subject to a refund based on the date when the Special Programs Office receives written email notification from parents for the child’s withdrawal.

Once the registration has been processed, the maximum amount of refund will be 75% of each course. The following schedule determines the amount of the refund:

- 75% refund until exactly seven days before the first day of the course
- 50% refund thereafter

This is a hands-on class where students build machines, buildings, vehicles and other structures out of LEGO® Bricks, using one-of-a-kind model plans designed by Bricks 4 Kidz®. Class is a lab-type setting using LEGO® components such as gears, axles and motors. Students will explore principles of engineering, architecture, science, physics, math, and develop problem solving and critical thinking skills. Each class begins with a teacher-led discussion related to the model of the day. Instructional content is multi-disciplinary and designed by educators to increase the student's general knowledge and introduce S.T.E.M. (science, technology, engineering and math) concepts related to the day's model. Class also provides an opportunity for creative expression and fosters an appreciation for how things work. 'IOLANI TENNIS SCHOOL
Welcome to the 'Iolani tennis school where students of all ages and skill levels learn to play the sport for a lifetime in a fun and nurturing environment. The many benefits tennis provides include the physical and psychological development of the student where challenges engage the body and mind. Perseverance, problem solving, and learning to work with others are traits formed through the process.

The 'Iolani tennis classes are part of a developmental pathway where students matriculate from one skill level to the next as they make progress. Group class offerings range from Kindergarten through the Upper school where the size of the court, racket, and ball are age and skill appropriate. We have adopted the USTA 10 and under tennis format where the play area and rackets start off small for younger students and progressively get larger as students age up.

The tennis programs have been established with four phases, taking into account the age and experience of each student. Each phase will focus on technical fundamentals, patterns of play, and match play appropriate for the skill level. The phases are as follows:

1. Beginner – Advanced Beginner (0–2 years experience, grades 1–9)
2. Advanced Beginner – Intermediate (2–3 years experience, grades 4–6)
3. Intermediate – Advanced Intermediate (3+ years experience, grades 6–12)
4. Advanced (State and nationally ranked, grades 9–12)

ORGANIZED COMPETITION
Organized competition in the form of “Play Days” and USTA Junior Team Tennis (JTT) are offered to give the students the ability to apply the skills learned in class to organized match play. Play Days will be offered on selected Saturdays to our Red, and Orange Ball programs. USTA Junior Team Tennis will be offered to students in our designated JTT programs. The combination of lessons and play time will provide the best opportunity for improvement.

INVITATIONAL PROGRAM
Invitational programs are available for students ages 12 and above who have established a record of competing in USTA sanctioned tournaments, ILH, and USTA Junior Team Tennis. These students are invited by the coaches to prepare for the Intermediate, Junior Varsity, and Varsity seasons.

PRIVATE LESSONS
Private lessons are available during the week and on weekends for those who are interested in more personal attention on technique and refining ones game. For private lesson availability please contact Henry Somerville at 798-8062 or email at hsomerville@iolani.org.
