

## **LOWER SCHOOL LIBRARY BIRTHDAY BOOK PROGRAM**

The Birthday Book Program is a way to give a gift to your child and your child's school. The birthday child selects from new library books, and a bookplate with their name will be attached to that book. This book will be sent home, and then returned to the library as part of the collections.

Students with summer birthdays will have their books presented as soon as possible. We can also make bookplates for other special events, such as a thank you to a teacher or a special friend.

To participate in this voluntary program, please click on the following link:
